

DOUGLAS BRADFORD | *J. Douglas Design, Inc.*

"When I designed this house for my client we had already worked on two previous homes together. The only items we brought from the previous home were two 18th century temple chests on acrylic pedestals from a palace in Asia. They set the tone for the entire home. I love the formality of the entry and the living room and the views of the backyard and swimming pool. It is like being in a five star hotel everyday." www.jdouglasdesign.com 214.522.8100
